10. Why we regularly share pupil and families information

We do not share information about our pupils and families with anyone without consent unless the law and our policies allow us to do so.

10.1 Youth support services & Careers advisors

Pupils aged 13+

Once our pupils reach the age of 13, we pass information about the pupil to our local authority so they can carry out their legal responsibilities in relation to the education or training of 13-19 year olds under section 507B of the Education Act 1996.

This enables them to provide services as follows:

- youth support services
- careers advisers

A parent or guardian can object to any information in addition to their child’s name, address and date of birth being passed to their local authority or provider of youth support services by informing us. This right is transferred to the child / pupil once they reach the age 16.

For more information about services for young people, please visit our local authority website or contact our Schools’ Data Protection Officer.

Pupils aged 16+

We will also share certain information about pupils aged 16+ with our local authority as they have responsibilities in relation to the education or training of 13–19-year-olds under section 507B of the Education Act 1996.

This enables them to provide services as follows:

- post-16 education and training providers
- youth support services
- careers advisers

A child / pupil once they reach the age of 16 can object to information other than their name, address and date of birth being passed to their local authority by contacting us.

For more information about services for young people, please visit our local authority website.

We are required to share information about our pupils with the Department for Education (DfE) either directly or via our local authority for the purpose of those data collections, under regulation 5 of The Education (Information About Individual Pupils) (England) Regulations 2013.

All data is transferred securely and held by DfE under a combination of software and hardware controls, which meet the current government security policy framework.

10.3 Local Authorities

We may be required to share information about our pupils and families with the local authority to ensure that they can conduct their statutory duties under the Schools Admission Code, including,

- conducting Fair Access Panels
- safeguarding of children/young people

- promoting the education, employment and training of young people which requires the exchange of data and the use of information not otherwise available to either organisation.
- census, Early Years Foundation Stage, Phonics, and other key stage pupil attainment data.
- to identify where pupils have transferred to make the task of tracking vulnerable pupils more secure and also to ensure appropriate services are extended to pupils needing additional support e.g., for reasons of health, exclusions, attendance or transport.

10.4 Requesting access to your personal data, and other rights

Under data protection law, pupils have the right to request access to information about them that we hold, and in some cases, parents can make the request on the pupil's behalf, although this will be subject to the pupil's consent within secondary schools, if they are deemed to be competent to understand the request and any implications.

- be informed about the collection and use of your personal data.
- have inaccurate personal data changed or completed if it is incomplete.

- restrict the way we are using your information, although, as above this is a limited right.

- object to the way we are using your information; though other than for marketing purposes, this is also limited as above.
- Where we rely on your consent to collect and use your data, you have the right to withdraw that consent. If you do change your mind, or you are unhappy with our use of your personal data, please let us know – our contacts are in section 2.14 at the end of this document.
- You also have rights in relation to automated decision making and profiling, though these are not currently relevant as we don't carry out automated decision making or profiling.
- Finally, the right to complain about the way we use your personal information to the ICO, or to seek compensation through the courts

If you would like to request access to your data, or use any of the other rights listed above, please contact the Trust office in the first instance.

11. How Government uses your data

The pupil data that we lawfully share with the DfE through data collections:

- underpins Trust funding, which is calculated based on the numbers of children and their characteristics in each Trust school.
- informs 'short term' education policy monitoring and Trust accountability and intervention (for example, school GCSE results or Pupil Progress measures).
- supports 'longer term' research and monitoring of educational policy (for example how certain subject choices go on to affect education or earnings beyond school)
